How to use a Java® Cushion to evaluate Custom AccuSoft Cushion specifications

Step 1

Sit client on an appropriately-sized Java Cushion.

Size used: Width _____" Length _____"

Step 2

Determine targeted cushion width in 1" increments.

☐ Record targeted width in section 3 of the cushion order form.

Step 3

Determine targeted cushion length relative to the front of the Java Evaluator Cushion.

Measure from the front of the Java Cushion to establish cushion length.

☐ Record targeted cushion length is section 4 of the cushion order form.

Step 4

Determine if additional lateral pelvic control is needed, adding Ride CAM Wedges to achieve this. Indicate where, and how many, Wedges were used.

The Ride Custom AccuSoft Cushion will be carved to match the contour created by Ride CAM Wedge placement.

☐ No Wedges used

Wedges used on left side

☐ 0 ☐ 1 ☐ 2

☐ 0 ☐ 1 ☐ 2

Step 5

Determine targeted sitting height and record in section 5 of the cushion order form.

Note: the height of the Java Cushion base and foam topper is as low as the Custom AccuSoft Cushion can be made.

Step 6

Determine whether wedges are needed under the Java Cushion during evaluation to achieve the desired position for correction or accommodation of pelvic/femoral asymmetries.

Record the usage of wedges here and record the targeted height in all four corners. Lateral height can be increased up to 2" from the top of the Java Evaluator Cushion.

Note: If more than 2" of additional lateral height is needed, please utilize Ride shape capture tools to capture and scan the shape.

Wedges used:

☐ Front ☐ Back ☐ Left Side ☐ Right Side

Cushion height at corners:

Front Right _____" Front Left _____" Rear Right _____" Rear Left _____"

Step 7

Determine if additional medial and/or lateral thigh support is necessary in section 7 of the cushion order form.

Lateral height can be increased by up to 2" from the top of the Java Cushion, in 1" increments.

Note: If more than 2" of additional lateral height is needed, please utilize Ride shape capture tools to capture and scan the shape.

Step 8

Complete the remainder of the order form and email, along with photos of the client on the Java Evaluator Cushion, to: customerservice@ridedesigns.com.

Proceed to Page 5 if a scanned shape is being submitted.
