MADE-FROM-MEASUREMENTS

Get started right away - no scan or Ride certification is required.

Scan to access made-from-measurements order forms.

CUSTOM MADE-FROM-MEASUREMENTS*

You can now order the Ride Custom Back and Ride Custom AccuSoft Cushion from a few quick measurements based on the individual's mobility base and unique presentation.

BUILT FOR INDIVIDUALS WHO HAVE BEEN CONSIDERED FOR TRADITIONAL LINEAR/PLANAR SEATING SYSTEMS

Created specifically for people who present with postural deviations that can be managed with relatively symmetrical seating but cannot be adequately addressed with an optimally configured, pre-fabricated seating system.

A BETTER SHAPE

Expertly designed to provide a more intimate fit, featuring a streamlined, thin profile when compared to traditional linear/planar seating systems.

EASILY ADJUSTED AND MODIFIED IN-FIELD

Unlike traditional linear/planar seating, the Ride Custom Back features the multi-axial FlexLoc mounting system that allows adjustment in every plane. In addition, the Ride Custom Back and Ride Custom AccuSoft Cushion can be modified in the field for an even more accurate fit.

AVAILABLE WITH SWING-AWAY LATERAL SUPPORTS

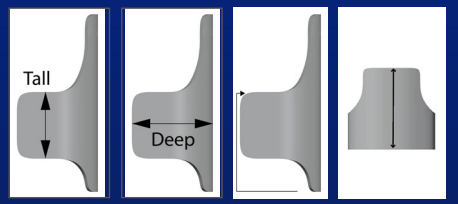
The Ride Custom Back made-from-measurements pairs seamlessly with JAY Swing-away laterals.

NO CERTIFICATION REQUIRED

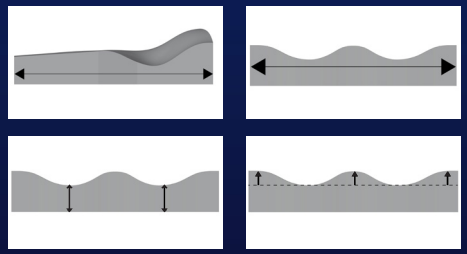
Order right away without a Ride Designs Certification.

EASY & QUICK MEASUREMENTS

for Ride Custom Back made-from-measurements:



for Ride Custom AccuSoft Cushion made-from-measurements:



*Clients who present with significant postural asymmetries and require substantial support to maintain optimal posture will experience the best outcome with a Ride Custom Back and a Ride Custom AccuSoft or Ride Custom 2 Cushion made from a captured shape that is scanned and submitted to Ride.
