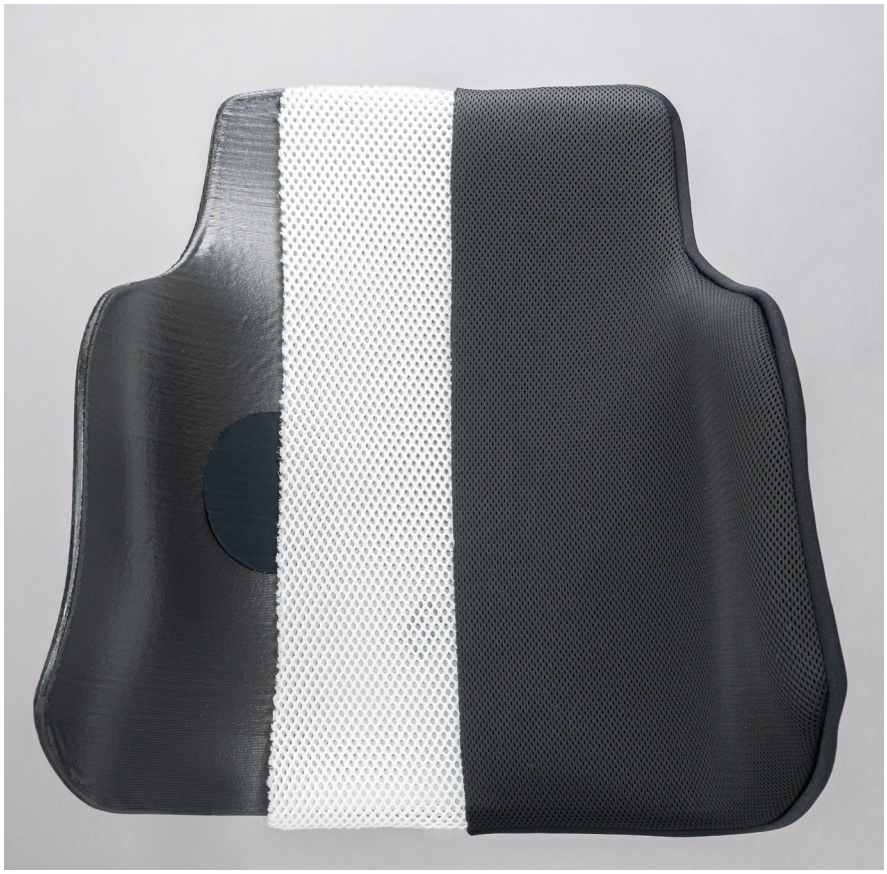
**Lightweight**
**Adjustable**
**Growable**
**Skin safe**

**Manufactured using the very latest in 3D printing technology!**

SUNRISE MEDICAL

# Ride® Custom Back support

**Ride Designs' lightweight, thin-profile, and adjustable Custom Back support for the widest range of needs.**



### Breathable
Ultra-breathable 3D mesh liner, plus removable and washable spacer fabric cover, help keep the sitter dry and comfortable in virtually any climate.

### Protection and comfort
Supplementary padding and reliefs improve protection and comfort at sensitive areas.

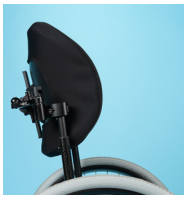
### Easy to clean and adjust
The 3D printed Ride Custom Back's single outer shell, plus a newly designed, removable cover eases cleaning, maintenance, and adjustments. Ultra breathable 3D mesh liner dries fastest of all.

### Mounting options
Strong ventilated outer shell provides stability and surfaces for easy mounting of hardware and accessories.

### Growable
Like the Ride Custom Cushion, the Back can be grown at a fraction of the cost of a new custom system.

## FlexLoc® Custom Back Mounting System

Adjustable and removable multi-axial hardware allows for the widest range of adjustment and security.



# Ride® Custom Back softer...

Cutaway view of Ride Custom Back shell, soft foam layer, and spacer fabric cover.

### Available with an AccuSoft® foam insert option!

For a more forgiving user interface, an open-cell polyurethane foam insert is available as an alternative to the ultra-breathable 3D mesh liner.

### Protection and comfort

Supplementary reliefs help improve protection and comfort at sensitive areas.

### Cover options

Available with choice of breathable spacer fabric cover or wipeable incontinence-proof cover. Both are removable and machine washable.

## RideWorks® Simulation, Scanning & Ordering Process

### Fast, accurate and safe

Quickly capture shapes with Ride's dual bead bag and vacuum system. Then draw trim-lines directly on the bead bags, scan the shape and then let the RideWorks app guide you through the rest. A fresh outer bag for each simulation helps prevent cross-contamination and infection.

### RideWorks

RIDEWORKS®

In minutes, Ride's exclusive app organizes the process of client photos, scanning, and order form completion — all of which are then transmitted to Ride Designs via the internet with secure encryption.

### Order with client specific measurements

Now available, The Ride Custom Back can be ordered with client specific measurements and desired finished product dimensions. No scan required!*

* Clients who present with significant postural asymmetries and require substantial support to maintain optimal posture will do best with a Ride Custom Back made from a captured shape that is scanned and submitted to Ride.

Excellent match for the active or growing user.

## Ride® Custom Systems

People are unique and their seating systems need to be as individual as they are. Specific and accurate application of our patented methods of support helps to ensure the best of seating outcomes.

- Improved mobility, balance, and control.
- Application of pressure and shear only where you need it.
- Aids in skin health by off-loading at-risk areas.
- Light weight and breathable.
- Adjustable.
- Growable.
- Completely washable.
- Coded for Medicare/Medicaid reimbursement.
- 90 day fit and function guarantee.
- Two year product warranty.

Perfect for the traditional custom user.
